

Roundtable Dialogue

Introduction

- The following slides contain 4 questions that will be discussed between your table and with your facilitator.
- You will have twenty minutes to discuss each question.
- The second question on each slide is for yourself to participate in through Slido. This is to ensure we have a mixture of quantitative and qualitative data within the roundtable dialogue.

Across the Caribbean what are the regions aspirations to decarbonise?

Slido question: Assuming there's ambition for a regional approach, what could be the regional target for decarbonisation? Add a percentage and year. (e.g. 20%, 50%, 75% decarbonised by 2050)
(Format: free entry)

Besides decarbonisation, what other benefits from offshore wind would be most important for the Caribbean region?

Slido question: Besides decarbonisation, what other benefits from offshore wind would be most important for the Caribbean region?

Are there opportunities across the region to develop an offshore wind supply chain?

Slido question: What supply chain services are available across region?

Is the public perception of offshore wind positive across the region?

Slido question: is the public perception of offshore wind positive across the region? Yes or no.
